

Join the world leader in thermal mass flow meter technology. FCI began in 1964 by pioneering the development and application of thermal dispersion flow and level sensing technology. The Company is the world-recognized leading manufacturer for solving flow and level measurement applications for industrial process and plant applications using patented thermal dispersion flow measurement technology.

From off-the-shelf product solutions to custom engineered products and systems, FCI provides world leading experience and a record of unequalled innovation to meet or exceed our customer application demands. Complimenting FCI product leadership is a world class Flow and Level Calibration Facility in which all calibrations are performed in liquids or gases utilizing only N.I.S.T. traceable equipment and instrumentation.

Currently, we are seeking a Calibration Technician.

Position Purpose:

Working under close supervision of the Calibration Lab Supervisor, the incumbent will be responsible for performing calibration of the FCI's product lines.

Essential Job Functions (primary duties and outputs of position):

- Set-up test rigs by installing assembled product in various test rigs.
- Obtain verification from co-worker of correct set-up.
- Set calibration, including manual and automated flow data collection.
- Troubleshoot problems in set-up or data acquisition system, correct as appropriate.
- Monitor test results during test and verify final results.
- Set-up and run simultaneous test rigs when possible.
- Perform verification of co-worker test rigs
- Other duties as assigned.

Minimum Requirements:

- 1 or more years' experience working in a manufacturing environment or demonstrated proficiency in advanced mathematics will be considered in lieu of experience.
- Advanced classes in math, chemistry, electronics or physics typically obtained at a junior college level is preferred, with demonstrated proficiency in math.
- Must be able to demonstrate a mechanical aptitude and attention to detail.
- Must demonstrate ability to follow verbal and written directions/work instructions, and produce quality work while maintaining focus and sense of urgency.
- Must be computer literate and able to demonstrate ability to use excel as well as ability to perform data input.
- Must be able to use tools such as wrenches and screwdrivers.
- Must be able to communicate in English.

All employees may be required to perform duties outside of their normal responsibilities from time to time, as needed. These duties may be modified or changed at any time at the sole discretion of management either orally or in writing. The above statements are not to be construed as an exhaustive list of all responsibilities, duties, and skills required of this position. All personnel may be required to perform duties outside of their normal responsibilities from time to time, as needed.

FCI is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex including sexual orientation and gender identity, national origin, disability, protected Veteran Status, or any other characteristic protected by applicable federal, state, or local law. If you are qualified individual with a disability or a disabled veteran, you have the right to request an accommodation if you are unable or limited in your ability to use or access our career center as a result of your disability. To request an accommodation, contact a Human Resources Representative.

FCI is an ITAR required employer and active participant of the DHS and SSA E-Verify program. Contract requirements for ITAR identify US citizen or permanent resident alien in the absence of ECCN.
